atingi allows organisations to implement nonprofit digital learning programmes in the Global South in the most cost-saving, scalable and sustainable way. We offer our platform as well as technical and didactical support 100% free of charge.

About atingi

atingi is a free-of-charge, multilingual, DPR-compliant e-Learning platform, which is commissioned by the German Federal Ministry for Economic Cooperation and Development (BMZ) and developed by the GIZ.

atingi offers a practical, scalable, and sustainable way to implement digital learning via its open-source Moodle Workplace state-of-the-art Learning Management System (LMS).

Why is atingi free?

atingi is commissioned and financed by the BMZ. Its goal is not to make profit but to provide a free public good that reduces barriers to capacity building across the Global South.

We envision a world in which digital learning is accessible, inclusive, relevant, safe and secure for all learners.
